David Wood

President World Heart Federation Board UK

MESSAGE FROM COURSE DIRECTORS

Dear Colleagues

It is my pleasure to welcome you to the 2^{nd} edition of the Fondazione Internazionale Menarini APSC Emerging Leaders Scholarship Program.

The Asia Pacific Region has increasingly been thrust into the spotlight of Cardiology developments in the 21st century. Home to half of the world population with some of the fastest growing and yet fastest aging populations, the region would only continue to grow in importance to the progress of Cardiology.

With this program, we bring the leadership to you; they are not just expert medical practitioners, they are leaders in the cardiology world. We hope you will tab on their expertise and wisdom and aspire to be great leaders. This year we have 43 emerging leaders from 25 countries with diverse background. In this digital age, you can connect face-to-face with real people, share best practices and learn from each other's challenges and possibly solutions.

We, at the Asian Pacific Society of Cardiology are grateful to Fondazione Internazionale Menarini for their support to make this platform possible and in the road ahead as the region continue to grow in prominence.

We look forward to meeting each and every one of you.

Yours sincerely,

Jan Ton

Adj Asst Prof Jack Tan Wei Chieh Director, Emerging Leaders Program President-Elect, Asian Pacific Society of Cardiology
